

## **Addendum #1 August 26, 2025**

RFQ TOTR 2025 PW-01 Landscaping Stone Pathway  
Sackville to Station Street Pathway

The following information is being provided for clarity:

1. The recommended height of the sitting wall is 18-22 inches.
2. The recommended material for the handrail is black aluminum handrail.
3. The recommended height of the handrail is 34-38 inches.
4. It says Alpine Pavers (Natural grey), This is a Casey Concrete Product shown in the design made in Amherst, Nova Scotia, they are similar to the pavers on the opposite side of station street, Shaw Brick would have a comparable product. We are seeking the above product or a comparable product.
